OBJECTIVE

Enthusiastic and detail-oriented AIML undergraduate passionate about solving real-world problems through data-driven and AI-based solutions. Seeking opportunities to apply my analytical and software development skills in a challenging, growth-oriented environment.

EDUCATION

Bachelor of Engineering in Computer Science (Specialization in AI & ML)

PSG College of Technology

Expected 2027

CGPA : 8.29

Higher Secondary Education Green Garden Matric Higher Secondary School

2021 - 2023

Percentage : 97.6

PROJECTS

MCP server for Multicarrier API platform: Built an MCP-based server for a multi-carrier logistics platform (eShipz) using FastMCP, enabling AI-driven access to shipment tracking, carrier analytics, shipment creation, and shipment detail retrieval via Claude Desktop.

Applied Regression Models on Real-world Datasets: Applied supervised learning techniques on real-world datasets using Python (Pandas, NumPy, scikit-learn, Matplotlib). Built logistic regression and Gaussian Naive Bayes models for classification tasks including Titanic survival, pancreatic cancer detection, and diabetes prediction.

Repora: Built a role-based classroom management web platform enabling room booking, issue reporting, and targeted announcements for students and administrators. Developed using React (frontend), Node.js + Express (backend), MongoDB (database), and JWT authentication with a responsive UI.

Movie Graph: Built a movie knowledge graph application with Neo4j and FastAPI to explore movies, actors, genres, and recommendations through connected data queries.

SKILLS

Programming Languages

Python, C

Web Technologies

HTML, CSS, JavaScript (Basics), Node.js (Beginner)

Database Technologies

SQL, MongoDB, Cypher, Neo4j

Data & AI Tools

Pandas, NumPy, scikit-learn, Matplotlib, LangChain

Dev Tools

Git, VS Code, Jupyter Notebook, Claude

Currently Learning

Backend Development, LLM Integration

EXPERIENCE

Sponsorship & Event Operations Member, Global Leaders Forum

Sept 2024 – Dec 2025

PSG College of Technology, Coimbatore, Tamil Nadu

- Supported the organization and logistics of **TedxPSGTech 2025**, focusing on venue decor, stage setup, and ensuring smooth event flow.
- Collaborated with cross-functional teams to maintain timelines and resource readiness for live sessions.

Host & Core Member, Youth United Council of India

Jan 2024 – Dec 2024

- **Hosted an Entrepreneur Webinar** featuring multiple startup founders—handled speaker introductions, moderated the event, and delivered closing remarks.
- Engaged over 100+ participants by maintaining flow and audience interaction throughout the session.

Events Team Member, CSEA

Sep 2025 – Present

- Organized National level technical symposium **Infinitum 2026**

AREAS OF INTEREST

- Machine Learning, Data Science, Backend Development, LLM

INVOLVEMENT & ENGAGEMENT

- Qualified for the **Smart India Hackathon (SIH)** internal rounds in both **2024** and **2025**, presenting innovative software solutions under the Software category.
- Active participant in **chess competitions**, demonstrating strategic thinking and problem-solving skills.
